Dear Rate Payers Association,

The Board of Directors of the SCCC wanted to extend a "Thank You" to your organization for encouraging your members to attend the "Information Meeting" in regards to village Incorporation in Sunshine Valley. It was the intent of the Club to 'host' this meeting so that all valley residents could gain the proper first-hand knowledge in order to make informed decisions.

**It is of great importance to the current Board of directors that you would know that we do not support the literature that was handed out at the Information Meeting on April 22, 2006. Apart from the agenda, the attached documents were neither support nor approved by the SCCC. The Board members were surprised and appalled by these documents. The original author of these documents has been contacted and informed that those do not reflect the feelings of the Club. We apologize for this unfortunate situation.**

The future of this valley is contingent on positive information and relationships. We also want to inform you that we have created a "Relationship Committee" that is dedicated to contributing to the healing in our community. The SCCC recognizes that the Ratepayers Association is extremely beneficial and necessary to our community, which has lead the Board to consider ways in which the community can come together and move forward.

It is the hope of the SCCC Board that we will be able to move forward in a positive way with the Rate Payers Association for the benefit of our whole community.

Sincerely,

Peter Adamo  
President, SCCC
